There is enough to fly in, Lifting us up so easily, yeah. There is enough to fly in, Keeping our breath as we fall free. There is enough to fly in, Missing the ground reliably, That's the key.

Big surprise, Although I don't like dancing, Cross the floor we glide, Together take into the skies. Love on the fly, Hold on tight, We're rising like a rocket, Shooting through the night. What makes us fly is out of sight.

Love on the fly, Big surprise by love. There is enough to fly in, Lifting us up so easily, yeah. There is enough to fly in, Keeping our breath as we fall free.

There is enough to fly in, Missing the ground reliably, That's the key. Now let's swing, And roll around in air, So bend that arm a wing, We're even going to a spin, To a spin, to a spin, Love on the fly, Keep loving tight, I'm spinning down, We fall in love from heaven, But we miss the ground, We fall in love but miss the ground. Miss the ground, Miss the ground, Love on the fly, Keep loving tight, We're rising like a rocket, Shooting through the night.

Big surprise by love. Let's fly. Love is the key to flying, Lifting us up so easily, yeah.
