

NiRo MR-Sleep-Tight

Sleep tight, until you wake up with the new day's morning light. Sleep tight, and be sure that I will stay with you by your side. If you're afraid of the night, I'll be there and fight.

You have your place in my heart until the rest of my life. Sleep tight, you will have time to see what you want to see in your life. Sleep tight, try to find your own dream and your future is bright.

If you're afraid of the night, I'll be there and fight. You have your place in my heart until the rest of my life. Sleep tight, if you are true to yourself, you will have nothing to hide.

Sleep tight, walk through your life and watch close with your open mind. If you're afraid of the night, I'll be there and fight. You have your place in my heart until the rest of my life.

Sleep tight, sleep tight. Sleep tight, until you wake up with the new day's morning light. Sleep tight, and be sure that I will stay with you by your side.

And I will stay with you by your side.
