

NiRo UW-So-Into-You

Music Cruising along, my baby is by my side And we're grooving to a California easy ride The sun and the sea are joining us for a ride As we roll from town to town Rays are shining down on our love and the sunshine Bringing us to life, hold this moment, don't postpone it Cause I wanna ride this ride till the end of time Oh baby I'm so into you You make my head spin with the things you do I wanna tell the world I feel brand new Baby I love the way I'm so into you Strolling along, I know when you're by my side And the sand beneath our feet is feeling warm and bright The moon in your eyes is catching my breath tonight Girl you're like a shooting star, aiming for my heart And your love is like moonlight, glowing in the night Hold this moment, don't postpone it Cause we're gonna ride this ride till the end of time Oh baby I'm so into you You make my head spin with the things you do I wanna tell the world I feel brand new Baby I love the way I'm so into you Instrumental Baby I'm so into you You make my head spin with the things you do I wanna tell the world I feel brand new Baby I love the way I'm so into you
