

NiRo HB-Breaking-Out

Do the other people see the world like I do? Do the other people hear things on earth like I do?
When I see a tree in green, do the others see the one in blue? When I'm feeling cold, are the
others feeling hot? I just wanna get out of my body and see all the things from a bird's eye view
Breaking out of my body, see myself in the way With eyes I've never seen the way before
Breaking out of my body, see myself in the way With eyes I've never seen the way before One
day I wanna know the thoughts of my fellow man And one day I wanna see myself like the
others do When I like the smell of flower, do the other one like they want to? When I'm feeling
glad, are the others feeling sad? I just wanna get out of my body and see all the things from a
bird's eye view Breaking out of my body, see myself in the way With eyes I've never seen the
way before Breaking out of my body, see myself in the way With eyes I've never seen the way
before Breaking out of my body, see myself in the way With eyes I've never seen the way before
Breaking out of my body, see myself in the way Breaking out of my body, see myself in the way
