

You-Can-Turn-It-Around

If someone had told me what my life was gonna be
If someone knew all the things that I could not foresee
If someone had traveled forth in time And came back to tell me that you will be mine someday
I don't know what I would have to say
What we have is not what people call a bed for sight
But that doesn't make it less adventurous, alright
They said it had to take some time
Until I was yours and you were mine
And now it's clear This is just the way it had to be
You can turn it around pretty darling That's the way it had to be
You can turn it around pretty baby
There's no place I'd rather be
Yes it's true It took some time to know you better
Now we know That we do belong together
You can turn it around pretty darling
It had to be something even from the very start
Even the smallest flames ignite sometimes too hard
No one had ever thought that we Would plant tiny seeds turned into trees
That grow so strong Stronger and stronger as life goes on
You can turn it around pretty darling That's the way it had to be
You can turn it around pretty baby
There's no place I'd rather be
Yes it's true It took some time to know you better
Now we know That we do belong together
You can turn it around pretty darling
We saw up the night Walk down that street
Till I found out where it would lead
Sometimes it's all too easy to overlook
What stands before your eyes
As if it was too close, too close
You can turn it around
You can turn it around pretty baby
Darling You can turn it around
Ooh, don't scream for it baby
Yes it's true It took some time to know you better
Now we know That we do belong together
You can turn it around pretty darling
You can turn it around
