

NiRo UG-You're-On-My-Mind

Music Empty sheets on my table Try to fill with words But nothing will rise up to my grave I'm sucking my pencil Try to find the right But you, you, you, you're on my mind Walking down the streets of my hometown The restless spirit goes somewhere else I don't really care About the minds that walk tonight It's you, you, you, you're on my mind You're making me crazy, you're making me mad You're giving me feelings I never had You're taking my heart, don't you go so fast Watching your actions takes my breath Your actions, watching your actions To me, in that tavern Spreads its nervous light They say the world washed up today All those noises, sounds Touch my ears from far But you, you, you, you're on my mind The night is almost over The day is breaking through I feel like sitting in my chair I walk the floor, I try to sleep Sing for me, still I don't breathe It's you, you, you, you're on my mind You're making me crazy, you're making me mad You're giving me feelings I never had You're taking my heart, don't you go so fast Watching your actions takes my breath You're making me crazy, you're making me mad You're giving me feelings I never had You're taking my heart, don't you go so fast Watching your actions takes my breath
