

NiRo UW-City-Nights

Feeling the sights and sounds as I look around I'm breathing the atmosphere, yet it feels the air. She's the place I'm not alone. In her arms, I'm always right at home.

She's all I ever need. City Lights, capturing her beauty. City Lights, dancing on the streets all night.

City Nights, bringing out her mystery. Yeah, she's always full of lies, but there's something about her. City Lights, City Lights.

I've been away too long, and my feelings grow. Her pulse lives inside of me, and I think it shows. Hearts are always homeward bound.

She's the one, no better place I've found. She knows I'll never leave. City Lights, capturing her beauty.

City Lights, dancing on the streets all night. City Nights, bringing out her mystery. Yeah, she's always full of lies, but there's something about her.

City Lights, City Lights. Hearts are always homeward bound. She's the one, no better place I've found.

She knows I'll never leave. City Nights, capturing her beauty. City Lights, dancing on the streets all night.

City Nights, bringing out her mystery. Yeah, she's always full of lies, but there's something about her. City Lights, City Lights.

Ooh, City Nights. Always full of lies. City Nights.
