

NiRo UW-Come-Back

Take a look inside my mind Time has changed my life completely Oh darling, how can I make you understand I don't want to lose you, I want to be your man Come back, I'll be true to you Try to give us one more chance Lady, deep within I know You feel the same way too Try to stir the night Honey, don't leave me standing in the cold I can't take it anymore Please don't let me go
