

NiRo JB-Downfall

Never was a monkey friend. Stuck up close and couldn't open them. My life was up and down the wall.

Not an easy catch when I was a ball. Look just what you've done. 20 years and still no, no me at all.

Under your control. Making me go crazy and ready for downfall. Don't make me do the things you want.

Time is running out and getting slow. 20 years in bed control. Time to learn to fly and let it go.

Look just what you've done. 20 years and still no, no me at all. Under your control.

Making me go crazy and ready for downfall. This is for all of you. You broke your family.

You broke your relationships. Hands up and walk down. www.microsoft.com
