

NiRo UW-Even-In-The-Night-Time

Every day is the same since you went away Everything looks great from the break of day
Doesn't make a difference if it's on or rain Cause I have only one thing in my mind Here's the
red chair to come back someday Under my umbrella when it starts to rain I don't mind, I'm
lonely with so much to say Cause I have only one thing in my mind Even in the night time you
shine And even when I sleep you can hide Even when I'm lonely and cry It helps me to imagine
your smile Even when the light falls on me And even when it's dark I can see And even if I know
it's a dream It feels as if you were here with me I still have a chance to get in touch People
always tell me that I dream too much But I don't really care even if they're right Cause there is
only one thing in my mind No one ever told me what it would be like Living on my own when
you're out of sight Forever in your presence be it day or night Cause I have only one thing in my
mind Even in the night time you shine And even when I sleep you can hide Even when I'm
lonely and cry It helps me to imagine your smile Even when the light falls on me And even when
it's dark I can see And even if I know it's a dream It feels as if you were here with me Wish that I
could rewind in time And make it right this time Wish that I knew what I know now I don't
somehow Even in the night time you shine And even when I sleep you can hide Even when I'm
lonely and cry It helps me to imagine your smile Even when the light falls on me And even when
it's dark I can see
