

NiRo UW-Falling

I must have taken you by surprise, when I looked into your eyes. Bet you never thought that you'd hear these words from me. Must have made it harder to believe.

Now I've crossed that borderline, to tell you how I feel. Have some sympathy, please don't turn away from me. Open up your heart and let me in.

Ooh yeah, can't you see it in my eyes? I'm falling, I'm falling. Oh I, it's just something I can't disguise. I'm falling in your arms.

I'm falling. Now you're smiling, I hope that means that you're giving me a chance. I'll go abandon it, I'll do anything you need.

Just to prove my love is so surreal. Ooh yeah, can't you see it in my eyes? I'm falling, I'm falling. Oh I, it's just something I can't disguise.

I'm falling in your arms. Ooh yeah, falling. I'm falling.

Oh I, it's just something I can't disguise. I'm falling in your arms. Can't you see me falling? Baby I'm falling in your arms.

I'm falling. Let me tell you how I feel. Can't you see me falling? Can't you hear me calling? I'm falling.
