

Forever Broken Heart

My situation We tell you that I still love you In this form of a broken heart And just let me speak to you Through our music About the way that I feel about us Loved with you just for rainy days So many days I'm misunderstanding About you Just let me tell you that I still love you In this form of a broken heart And just let me speak to you Through our music About the way that I feel about us Time to make a change And so I get it up and I let it go Cause I don't need these silly games anymore Cause I'm no longer your child And just let me tell you that I still love you In this form of a broken heart And just let me speak to you Through our music About the way that I feel about us And just let me tell you that I still love you In this form of a broken heart And just let me speak to you Through our music About the way that I feel about us Thank you.
